Hancock County looks toward 1978 with confidence, hope of prosperity

by JAKE JACOB

State, county, and municipal political leaders in Hancock County this week all expressed confidence in the year ahead.

State Representative J.P. Comprett said he held great optimism towards the outcome of the 1978 legislative session, and said the committee for education, of which he is a member, will probably ask the governor for a special session for revising educational law.

He indicated such revision could include a lessening in the number of school district types, a move necessary to bring about consolidation.

Alton A. Kellar, president, Hancock County Board of Supervisors, said construction was occurring from "one end of the county to the other," and was equally noticeable in both the urban and rural areas.

Kellar's, who described the coming year's outlook as "healthy," inserted a note of caution concerning both inflation and the energy crisis.

Bay St. Louis Mayor Larry Bennett projected an active year in public works within the city, citing his number one priorities as being the completion of master sewer and drain plans, and completion of a fire station on the south side of the Louisville and Nashville Railroad.

Mayor John Longo, Jr. of Waveland, without hesitation, said Friday he believes 1978 will be "...the greatest year in Hancock County's history."

In reference to his ownership's position in the scheme of things, Longo added,

Garbage schedules told for New Year

Due to the day after New Year's Day being a scheduled holiday for the cities of Bay St. Louis and Waveland, garbage collection for the first week in January will be:

Bay St. Louis

Monday's route will be run on Tuesday.

Tuesday's route will be run on Wednesday.

The rest of the week will remain unaltered.

Waveland

Monday's route will be run on Tuesday.

Tuesday's route will be run on Wednesday.

Rest of week will be normal.

No trash pick-up will be made.

"I really think Waveland will rise to the number one spot in percentage of growth in the entire state.

Representative Comprett said that one of the predictions of the state's budget and accounting commission is that it will finish fiscal '78, with a \$30 million surplus.

"I do not understand why there is any talk of tax increases in '78.

"The increased economy of this state has resulted in the surplus.

"Instead of talking tax increases we are looking for a complete reorganization of the highway department.

"Instead of continuing with its archaic form of operation the reorganization committee will probably recommend we trim fat and do away with the three commissioner operation," Comprett indicated.

He said another area for concentration in reorganization is the tax department which he feels should be combined with all departments involved in revenue collection.

"The people of this state are looking for a tax cut, even if it be a minor one, such as the removal of sales tax from prescription drugs and groceries.

"In another area, I see everything falling into place for the equalization of taxes. The farmers and supervisors who previously opposed this legislation are now pushing for reappraisal and reassessment.

Hancock County is paying its share, but many counties are not. George Heitzmann, the tax assessor and collector, is the best there is, and he has kept Hancock in an enviable position regarding its tax structure," Comprett said.

Speaking of education, he indicated the committee, with its new chairman, Robert Clark of Lexington, will probably recommend to the governor that he call a special session for the sole

Save The Bay, Inc., environmentalist organization opposing the waste disposal methods at Dupont's Delisle plant, is described by its leadership as "now in the most crucial stage we have been in during the entire three years of our existence."

At this point, continuation of the group's activities depends on active involvement, including additional financial support, by the group's membership, according to Cyril R. Laan of Metairie, La., Save The Bay chairman.

In a letter to members and supporters, Laan said the organization

census; or three, they can rule on another plan all together.

"In the future, to avoid all this, the new reapportionment committee will meet every 10 years (following the census) to work out a new plan."

In a final item, Comprett said his first interest was to get the \$175,000 oil lease payment transferred from the state to the school system.

Supervisor President Kellar said with the Army ammunition plant breaking ground Jan. 10, the new wave pool in Waveland, the industrial growth at Port

Biloxi and Stennis Field, DuPont, Alcan, and the increasing building all over the county, 1978 "...really looks good to me."

He said the revenue sharing funds are letting the county black top most of the roads and that the bridges in Beats 3, 4, and 5 were all being brought up to shape.

Other important areas cited by Kellar included the work being done in connection with the Waveland Elementary School approaches, completion of the Kiln-Fenton Road,

and the new community centers in Kiln, Bayou Phillips, and Necessity Crossing.

After telling of major farm area improvements, Kellar said the White Cypress Lakes campground development is coming along on schedule and that the builders have already indicated they expect full occupancy of completed facilities when camping season begins.

Kellar said he is concerned over the energy situation and also over the question as to whether or not the evulsions

(Cont. on Page 4)

Save The Bay leaders beg help; job not over

needs their "help and guidance as to where we go from here."

He urges the membership to send written comments to him within the next two weeks on what courses of action they wish the group to pursue.

In addition to the earlier announced intention of the group's attorney, Robert Homes, to play a considerably lesser role in future activities of the group, Laan indicated in the letter he too may step down from his position of leadership.

"Several local attorneys on the Coast have told us they are willing to dedicate

Bayou LaCroix landfill closure adds to county's garbage woes

by JAKE JACOB

Complaints concerning trash and indiscriminate garbage dumping at both the old and new sanitary landfill sites and their approaches were voiced again this week by angry property owners adjacent to both locations.

Prior to the advent of the latest rainy weather, complaints were being aired

against the influx of flies originating in the area of the new Catahoula operation.

Supervisor Sam Pernicaro of Beat 4, under whose auspices the sanitary landfill is operated, said Friday he is aware of the problems and is taking positive steps towards their alleviation.

"Two major factors are involved in

the garbage dumping. One seems to be caused by many people still being unaware of the Bayou LaCroix sanitary landfill closure, and the other stems from a lack of knowledge of where the new landfill site is located," Pernicaro said.

He said new, large signs are being painted advising of both facets,

"We have posted 'No Dumping' and 'Closed' signs at the old location, but some people, lacking knowledge of where the Catahoula dump is, are unloading trash and garbage in the vicinity of the old site.

"As far as the files are concerned, if the new site is the cause of this problem it should soon be corrected.

"As soon as the equipment security fence installation is complete, the new landfill site will be trenched and garbage will be covered over each day.

(Cont. on Page 4)

Programs, projects get budget nod in Chamber reorganization

by JAKE JACOB

The Hancock County Chamber of Commerce reorganized its administrative staff this week in a move to slash overhead costs in favor of spending funds thus freed on programs and promotional projects to be postponed or tabled.

To further this commitment Dick Thomas, president, and the board of directors has decided to create a new, top post of executive secretary.

Capt. Max Burns, chamber manager since 1976, has submitted his resignation, clearing the way for the imminent five-shif

on WAY TO RETIRE: Capt. George Heitzmann, tax collector for Hancock County, left yesterday after resigning as Assessor-Tax Collector for Hancock County effective Dec. 31. He first started in the Hancock County Courthouse in 1948 as a deputy tax collector for sheriff Claude Morris after which he became tax collector. Laan of Metairie, La., Save The Bay chairman.

Heitzmann held his post as tax collector for the last six years when office was combined with assessor. Heitzmann's replacement as tax collector will be George Heitzmann will serve on an interim basis until an election can be held.

(Staff photo-Jake Jacob)

and the chamber's financial base and membership.

Administrative costs have also steadily increased causing many programs and promotional projects to be postponed or tabled.

It is the consensus of the board that with the wealth of dedicated capable people in the Hancock County Chamber of Commerce, and the coordination of the community, the chamber will be successful in its

many of these pressing projects and continue forward in 1978.

MOUNDS OF GARBAGE line Bayou LaCroix Road, north of US-90 Friday as frustrated "dumpers" finding old sanitary landfill on that road now closed, pile trash alongside road at first available opportunity. Old dump, lying inside NASA

NSTL (not shown), was closed last month on order of the Corps of Engineers. New sanitary landfill is at Catahoula, 10 west of Kiln crossroads. (Staff photo-Jake Jacob)

Board thanked the members for their continued support.

**Vital
Statistics**

The following permits have applied for marriage licenses at the Hancock County Circuit Court Clerk's office during the period Dec. 7 through Dec. 30:

Dec. 7
Hicky Eynell Waitman, 17, Rt. 1, Box 236, Pass Christian, and Miss Susan Marie McCrary, 16, Rt. 1 Box 211, Bay St. Louis.

Dec. 8
Leslie Allen Clark, 57, 427 East Beach Blvd., Pass Christian, and Mrs. Glenda Swilley Price, 31, 1430 West Borden Avenue, Wiggins.

Dec. 12
William Henry Wagoner, 27, 5052 Denver Street, Kansas City, Mo., and Miss Brenda Marie Skinner, 17, P.O. Box 272, Lakeshore.

Robert S. Nestle, 28, 201 Hoffman Ave., Waveland, and Miss Heather Alice Mickie, 26, 201 Hoffman Ave., Waveland.

Dec. 15
Steven Abraham Ladner, 55, Rt. 1, Box 508, Pass Christian, and Mrs. Eva Dedeaux Wright, 48, 1306 Americana Apartments, Gulfport.

Dec. 19
Julius Walter Scheidel, 61, 812 East William David Parkway, Metairie, La., and Mrs. Estelle Scroggs Scheidel, 57, 812 East William David Parkway, Metairie.

Ted Everidge Jr., 16, 6802 Willow Lane, Apt. N, Crestview, Fla., and Miss Patrice Marie Bunch, 15, 303 Piney Road, Waveland.

Larry Robert Gilbert, 20, Rt. 1, Box 338, Carriere, and Miss Angela Fern Lee, 22, P.O. Box 884, Picayune.

Charles Joseph Miller Jr., 56, 2405 Corinne Ave., Chalmette, La., and Mrs. Rita Stire Bergeron, 52, 11309 Prentiss St., New Orleans, La.

A total of 141 seniors in Mississippi high schools are in the Merit Scholar running this year, with Jackson Preparatory leading with 10 semifinalists.

**THE OLE
PASTOR**

SAYS...

IDOLATRY was the greatest of Israel, Egypt and other nations of Old Testament times. Idolatry is likewise the greatest of America and other contemporary nations. When we speak of idols, we are not necessarily talking about blocks of wood, stone, or a golden calf. One does not have to look for tangible idols of whatever kind among "heathen and pagan" religions. One may only have to look into his or her own heart to find idols of their own choice and making. The essence of idolatry is to love anything more than God, to trust anything more than we trust in God. To permit anything, or desire lust or craving for anything which steals our affections from God is idolatry. The Apostle Paul equates covetousness as idolatry (Col. 3:5).

When viewed in the illuminating light of the Scriptures, the hearts of many professed Christians are filled with the grievous sin of idolatry.

Ephraim has turned his back upon God and had gone his own way. God said, through the prophet Hosea: "Ephraim is joined to idols; let him alone" (Hosea 4:17).

He was not satisfied to trust in

**Bay High ranks
among top ten
Merit schools**

Bay St. Louis and Long Beach High Schools are ranked among the top ten schools in Mississippi this year on the basis of numbers of students reaching semifinals of the 1978 National Merit Scholarship Program.

Long Beach High produced four Merit semifinalists, and Bay St. Louis High has three.

St. Stanislaus College in Bay St. Louis is also among the listed schools with one semifinalist.

The winning students represent the top half of one percent of the nation's most academically talented young people.

They will take a second examination later this year to reinforce first test scores, with finalists receiving college scholarships to be awarded in April.

The Bay High semifinalists are seniors Michelle M. Crull and Katherine M. Ross. Mark R. Kelso is also among this year's semifinalists. He finished requirements at Bay High at the end of summer, and is now enrolled at University of Southern Mississippi, Hattiesburg.

The St. Stanislaus semifinalist is Phillip Mueller of Pass Christian.

The Long Beach competitors are David Braud, Eric Froelich, Cliff Holley and Vance Justice.

A total of 141 seniors in Mississippi high schools are in the Merit Scholar running this year, with Jackson Preparatory leading with 10 semifinalists.

**Feed grain program
loans, aid, price, given**

"To be eligible for loans under the feed grain program, target price guarantees and disaster coverage, farmers must set aside 10 percent of their feed grain acreage in 1978," Victor A. Senegal, an official of USDA's Agricultural Stabilization and Conservation Service (ASCS), said this week.

Discussing the provisions of the conditional 1978 feed grain program, he said the main reason for the set-aside provision was the supply situation. "We had a record production of feed grains in 1977. In the case of corn, our stocks are expected to increase by nearly 400 million bushels. We expect our total feed grain carryover supply to be 48 million tons at the end of this marketing year."

"We do not plan to make any payments for diverting land. In other words, there will be no payments for not

producing, as we've been accused of in some of the past programs that we've operated. The benefits a farmer will get from participating in the program will be established for barley and sorghum. Oats are not included in the 1978 program," Senegal concluded.

Obituaries

OLA LADNER

Ola Moise Ladner, 91, a lifelong resident of Pass Christian, Ladner community, died Wednesday at Gulfport Memorial Hospital. Rosary was recited at Thursday at Riemann Funeral Home in Pass Christian. Funeral was Friday in Sacred Heart Catholic Church at Dedeaux, followed by burial in the Rotten Bayou Cemetery.

He was a retired self-employed farmer and a member of Sacred Heart Catholic Church.

Survivors include eight sons, Leon Ladner and Neville Ladner, both of Dedeaux, Clarence Ladner of Bay St. Louis, Woodrow Ladner of Catahoula, Ola M. Ladner, Jr., of Long Beach, Carl Ladner of Lyons, Ga., Royce Ladner and Leran Ladner, both of the Ladner community; five daughters, Mrs. Viola Herron of Kiln, Mrs. Clara Hoda of Fenton, Mrs. Cleo Zahn of Waggoner, Okla., Mrs. Una Mae Ladner and Mrs. Leola Alexander, both of Long Beach; one brother, Randolph Ladner of the Ladner community; three sisters, Mrs. Sedonia Dubuisson of the Dubuisson community, Mrs. Evelyn Spence and Mrs. Adrienne Cuevas, both of the White Cypress community; 57 grandchildren, 68 great-grandchildren and nine great-great-grandchildren.

GENEVA HERZIG

Funeral services for Mrs. Geneva Malley Herzig were Wednesday from Riemann Funeral Home in Gulfport, followed by burial in the Conn Cemetery in Long Beach.

Mrs. Herzig, 57, a retired licensed practical nurse and a resident 1019 Orchard St. in Toledo, Ohio, died Friday in Toledo.

She lived in Gulfport 26 years before moving to Ohio.

Mrs. Herzig was an LPN for eight years at Parkview Hospital in Toledo. She was a Baptist.

Survivors include one son, L.J. Griffin of Toledo; and three brothers, Arthur Malley of Pass Christian, Alvin E. Malley and William A. Malley, both of Gulfport.

MARTHA TYLER

Mrs. Martha Beauchamp Tyler, mother of Dee Hamilton of Gulfport and a resident of Terry, died Tuesday at St. Dominic Hospital in Jackson.

Her funeral was held Wednesday in the Wright-Ferguson Funeral Home Chapel in Jackson, followed by burial in Terry Cemetery.

In addition to her son she is survived by two sisters, Mrs. Sarah Beauchamp Fiellin and Mrs. Mary Lou Beauchamp Copenhagen, both of Port Charlotte, Fla., one granddaughter and two great-grandchildren.

REBA MITCHELL

Mrs. Reba Claire Mitchell, 75, of Picayune, died Tuesday in Picayune. Her funeral was Wednesday at the First Baptist Church of Picayune, with burial in New Palestine Cemetery.

She is survived by one daughter, Mrs. Julia Mitchell Seal of Picayune; one stepson, Dr. Ray F. Mitchell of Biloxi; two sisters, Mrs. Lucille Garret of Poplarville and Mrs. Sue Bob Perry of Pascagoula; eight grandchildren and three great-grandchildren. McDonald Funeral Home in Picayune was in charge of services.

AICE WAGNER

Mrs. Alice Morse Wagner, 77, wife of Richard Wagner and a resident of 1705 Alexander Dr., Gulfport, died Wednesday at Gulfport Memorial Hospital. The body was sent from Riemann Funeral Home in Gulfport to the P.J. McMahon Sons Funeral Home, 4800 Canal St., New Orleans for funeral services, followed by burial in the Masonic Cemetery at New Orleans.

Born in New Orleans, she had lived in Gulfport since 1955. In addition to her husband, she is survived by two sons, Barclay Wagner of Pass Christian and Richard Wagner of New Orleans; one sister, Mrs. Jessie M. Robert of New Orleans; and seven grandchildren.

FRANCES RUBY ELEY

Mrs. Frances Ruby Eley, 77, 2314 Government St., Ocean Springs, died Wednesday at the Ocean Springs Hospital where she had been a patient for approximately ten days.

Born in Sunrall, she had been a resident of Ocean Springs for 57 years.

The funeral was Friday at the Ben O'Keefe Mortuary in Ocean Springs. Burial in Evergreen Cemetery in Ocean Springs.

Survivors are her husband, William H. Eley of Ocean Springs; one daughter, Mrs. Miriam C. Karnes, Trinity, Tex.; one son, Harold L. Eley, Pensacola, Fla.; two brothers, J. P. Sunrall, Baton Rouge, La., and Thomas W. Sunrall, Long Beach, three grandchildren and two great-grandchildren.

LOWELL F. McDANIEL

Lowell F. McDaniel, 16, a resident of 3400 16th St., Gulfport, died Thursday at his residence.

A mechanic for Coast Auto Sales in Biloxi, he was born Jan. 8, 1959, in Collins, and had been a resident of the Coast since 1964.

Mr. McDaniel attended Pineville Elementary and Pass Christian High School and was a member of the Riverside Baptist Church of Pineville.

He is survived by his parents, Mrs. Ruth McDaniel of Gulfport and Franklin D. McDaniel of Long Beach, and two sisters, Miss Laura McDaniel and Miss April McDaniel, both of Gulfport.

Services were Friday form Riemann's Funeral Home in Gulfport, Rev. Jim Futral, pastor of Grace Memorial Baptist Church, officiating.

Burial was in Evergreen Gardens.

JUNIA KNIGHT

The body of Junia S. Knight was sent from Riemann Funeral Home in Gulfport to the Honaker Funeral Home in Slidell, La., for funeral services and burial.

Knight, 55, of 228 Russell St. in Long Beach, died Monday at Gulfport Memorial Hospital.

Kraft plant turns trees into bucks

Hancock County forest owners sold \$892,510 worth of trees to St. Regis Paper in 1976, according to a company report.

Throughout the state, the company reported, more than \$30 million worth of wood was purchased from Mississippi forest owners during that year.

REBA MITCHELL

Kenneth D. Bailey, general manager of the company's Southern Timbers Division, said St. Regis purchased timber in 41 of Mississippi's 82 counties.

The Mississippi timber is a source of raw material for the company's kraft paper and pulp mill in Monticello.

Bailey said during the period St. Regis purchased more than \$1 million worth of wood in Amite, Atala, Clarke, Copiah, Jasper, Lawrence, Lincoln, Marion, Perry, Smith, and Winston Counties.

Other county totals for the year include Harrison, \$386,015; Hinds, \$21,630; Forrest, \$861,160; Jackson, \$221,230; Lamar, \$80,710; Stone, \$147,280; George, \$171,405; Greene, \$392,015; and Perry, \$1,139,225.

Bailey said during 1976, St. Regis planted almost 30 million seedlings in the South to replace timber that was removed. The company plants four trees for every one harvested, he added.

St. Regis has reforested between 25,000 and 50,000 acres of land in the South every year for the past two decades, Bailey continued.

Wood is supplied to the company's mills through a network of individual businessmen who deliver directly to the mills or to railroad shipping points.

Opinion/Ellis Cuevas

A salute to George Heitzmann

Assessor-Tax Collector George Heitzmann turned the key in the lock of his Hancock County office for the last time Dec. 31, 1977, and brought to a close an unblemished, even illustrious, 43 year career in public service.

Having served Hancock County as Assessor for a total of 18 years with tax collector added during the past six years Heitzmann is well known throughout the State of Mississippi.

After being graduated from St. Stanislaus in 1934 he was hired as a deputy tax collector by the late Sheriff Claude Monti in January of 1935. Heitzmann spent some time in the Chancery Clerk's office as a deputy and worked at nights during World War II while serving as a supervising clerk for the Selective Service Commission of the Coastal area. He tried to enlist into the military but was turned away due to his having lost an eye in his youth.

Heitzmann's retirement is a big loss to Hancock County. His work as an assessor is well known and respected as being "Fair and equal to all." His honesty is beyond question.

Today when we read and hear about so many corrupt politicians, we can be grateful for someone like Heitzmann.

Heitzmann's private life as well as his political life has been beyond question. His loyalty to his family, church, country, school and electors of Hancock County has always been foremost in his actions.

Hancock County has come a long way since Heitzmann was first elected assessor, from 2500 parcels to over 92,000, a valuation of \$12 million to \$43 million.

When there is a state equalization of taxes in Mississippi, we can say Heitzmann laid the groundwork.

We feel that when it comes to political figures, we feel that Heitzmann is at the top of the ladder.

To George Heitzmann, may your years be many, we wish you good health and enjoyment with your wife, children, grandchildren and many friends.

L&N bosses curious about track movers

By EDGAR PEREZ

Mississippi's new Coast Counties Railroad Commission, which includes representation from Bay St. Louis and Waveland, may meet with Louisville and Nashville Railroad officials later this month.

The ad hoc commission, formed with a primary purpose of effecting the relocation or elevation of some 90 miles of rail lines through Hancock, Harrison and Jackson Counties, plans to outline its proposals for the railroads and the public at a January meeting.

In the meantime, the commission has remained in close contact with state legislators in hopes it can be formally approved as a state agency during the next session of the legislature.

If the commission is formally established, the allocation of federal funds for railroad relocation and/or improvement would be made through the commission.

All counties and communities along the railroad from Louisiana to Alabama will be affected by the commission if it is approved by the legislators.

Sea Coast Echo

Dear Sir:

I would like to use your fine newspaper as the medium to express public thanks to the City-County Library and its staff for the Christmas party for the county's children on Dec. 17. It was obvious that much time, energy, planning, and volunteer help went into the program that was presented. June Dearman, especially, deserves a pat on the back for her weekly Story Hour, too, particularly the one viewed this Halloween.

Any parent who does not avail themselves and their child or children

of the fine library facility and the services provided is depriving themselves.

Thank you.

Mrs. Paul O. McCormick, II
and sons, Del and Kirk

Map indicating route and location of new Hancock County Sanitary Landfill site

(Cont. from Page 1)

Landfill...

"Two men will be working at the site on a full time basis with another on weekends and one in the evenings," Pernicaro explained.

The supervisor agreed that some confusion may have arisen concerning access to the new landfill due to their being one route for heavy vehicles, such as the city garbage trucks, and another, more convenient for people from the south part of the county, for cars and pickups.

Persons toting garbage or trash to the landfill in light vehicles or trucks, may go north on Highway 603 until they reach the flashing light at Kiln crossroads, turn left (or west), and the landfill site is about five miles straight down that road, the old Kiln-Picayune highway.

Heavy trash or garbage trucks should proceed up 603 until reaching Cuevas Junction, turn left (west) on Highway 43 (new Picayune highway), turning south (or left again) on the Quavetown Road (Cuevas Road), the junction of which meets the old highway more or less at the Catahoula landfill site.

The new signs will clearly mark this latter route.

Notice of closure of the Bayou La Croix Landfill, was given late November, with the action becoming effective on Dec. 7.

County supervisors were forced into the action by an order of NASA-NSTL on whose holdings (buffer zone) the landfills are located.

Action on the NASA request followed the supervisors receiving a letter from Melvin W. Dovith, chief, Real Estate Division, Corps of Engineers, Mobile, saying that permission to use the new Catahoula location had been granted following a previous request to cease operations at Bayou La Croix and to restore the site to the condition required by the license and the State of Mississippi Board of Health regulations.

Dovith, in his letter dated Nov. 10, said that an inspection on Nov. 7, revealed Hancock County was still occupying the site ...that considerable garbage and debris were on the site as well as the access road leading thereto."

"You are hereby directed to cease

dumping garbage immediately at the site initially granted to Hancock County and to restore the site, including the access road, to the condition stated in the first paragraph above within 30 days from the date of receipt of this letter. Disregard of these instructions could result in Hancock County being

Save the Bay...

some of their time at much reduced fees to Save The Bay causes, but we definitely need one or more forceful leaders, residents of the coast, to assume the position of president and other offices functions to carry on," Laan wrote.

He pointed out that there are a number of lawsuits still pending which could do much to protect Bay St. Louis and its environs from industrial pollution, as well as other legal avenues open to environmentalists.

One such course of action, Laan said, is to present the environmental case at a forthcoming public hearing by the Corps of Engineers at the urging of Save The Bay on whether to permit construction of railroad bridges across Turkey Creek and the Wolf River and their respective swamps for a Dupont spur line.

The hearing date, expected sometime in January, has not yet been set, and Laan urges Save The Bay members to plan to attend the hearing once the date is announced.

Several recommendations made by Save The Bay scientists to the permit board of the Mississippi Air and Water Pollution Control Commission during six months of hearings which ended last month were adopted by the board.

Laan cited the resultant modification of Dupont's waste disposal permit as a "very important victory" for Save The Bay.

He said the MAWPC had accepted a "modified and restricted Dupont surface discharge permit," and as a result, "We believe the surface

discharges by Dupont into the Bay will probably be cleaner than any other titanium dioxide plant in the world."

He outlined three major unsettled areas of contention he feels Save The Bay should continue to pursue:

"Although the surface discharges

will be relatively 'clean,' they end up in the delicately balanced eco-system of the northern part of the Bay, which is so enclosed, so shallow and so without circulation, that some of our scientists claim even pure well water can substantially unbalance the eco-system."

"The deepwell toxic waste discharge remains in the permit. We feel Dupont's design is about as safe as any deepwell can be made. Yet, deepwell disposal of toxic matter remains a controversial matter and is potentially subject to human error, thus the hazard to our drinking water remains."

"The location of Dupont on this site appears to be leading to further industrialization of the Bay. The entire 20,000 acres between Desoto and Gulfport along the railroad spur now being built to serve Dupont is being promoted by the county as 'opening up for new industry.' Do the residents of the Coast really want such a corridor of heavy industry, with smokestacks polluting the air within a few miles north of them? There is ample vacant acreage available in the existing industrial parks nearby for new industries and the same new jobs without destroying valuable environment forever."

The family of the deceased receives a prompt acknowledgement of your memorial gift. You receive a receipt for your tax-deductible contribution.

County in '78...

(Cont. from Page 1)

or benefits of increased evaluation would be eliminated by inflation.

Mayor Larry Bennett of Bay St. Louis said that during 1978 the city plans to work closely with the Bureau of Outdoor Recreation (BOR) to obtain part improvement funds and to expand recreational facilities.

After telling of the proposed master sewer and drainage plans, both needed prior to application being made for additional government aid, Bennett said funds are also being sought for city-wide street repairs.

He said the new, south of the railroad tracks, fire station would result in a considerable drop in fire insurance rates within the city.

Bennett thanked the people for their support in the first six months of his tenure in office and cited several accomplishments as a result. These included: the Main Street rebuilding; additional firemen through the Public Service Employment at no cost to the city; engagement of a city mechanic through the same source; acquiring of grants from the Law Enforcement Agency (LEA) whereby the city was able to obtain communications equipment and a police car; the starting of the sewer extension project; the obtaining of workers' compensation for city employees, and a start on the pedestrian overpass.

Finally, Bennett allowed a start had been made on acquiring the old L&N Railroad station property for conversion into a museum.

Waveland Mayor John Longo, Jr., said that both commercial and personal property was on the increase in his city.

"I am delighted with the development in Waveland.

"I sincerely believe 1978 will be the greatest year in Hancock County's history, and I think Waveland will rise to the number one slot in percentage growth in the state," Longo said.

He said, "Waveland hopefully will not raise taxes this year, or next, that I can guarantee."

"Nor," he added, "unless inflation gets so bad money becomes worthless, can I see that we will ever have to raise taxes. If the economy stays about the same, then the increased tax income brought about by normal growth should result in the city not needing any tax raise."

Longo said he believed the nation should treat the energy problem as immediate.

He said the present application of solution does not appear to be coping with the problem and that he would favor some form of deregulation even if it resulted in slightly higher prices.

Longo invited everybody to his city for Mardi Gras saying the first parade was the Krewe of Nereids, and on Mardi Gras Day, Krewe of Triton.

"In March we have the St. Patrick's Day parade, don't forget," Longo reminded.

He said the American Legion's Avenue of Flags should be in evidence by that time, making this year's events even more spectacular."

Chamber...

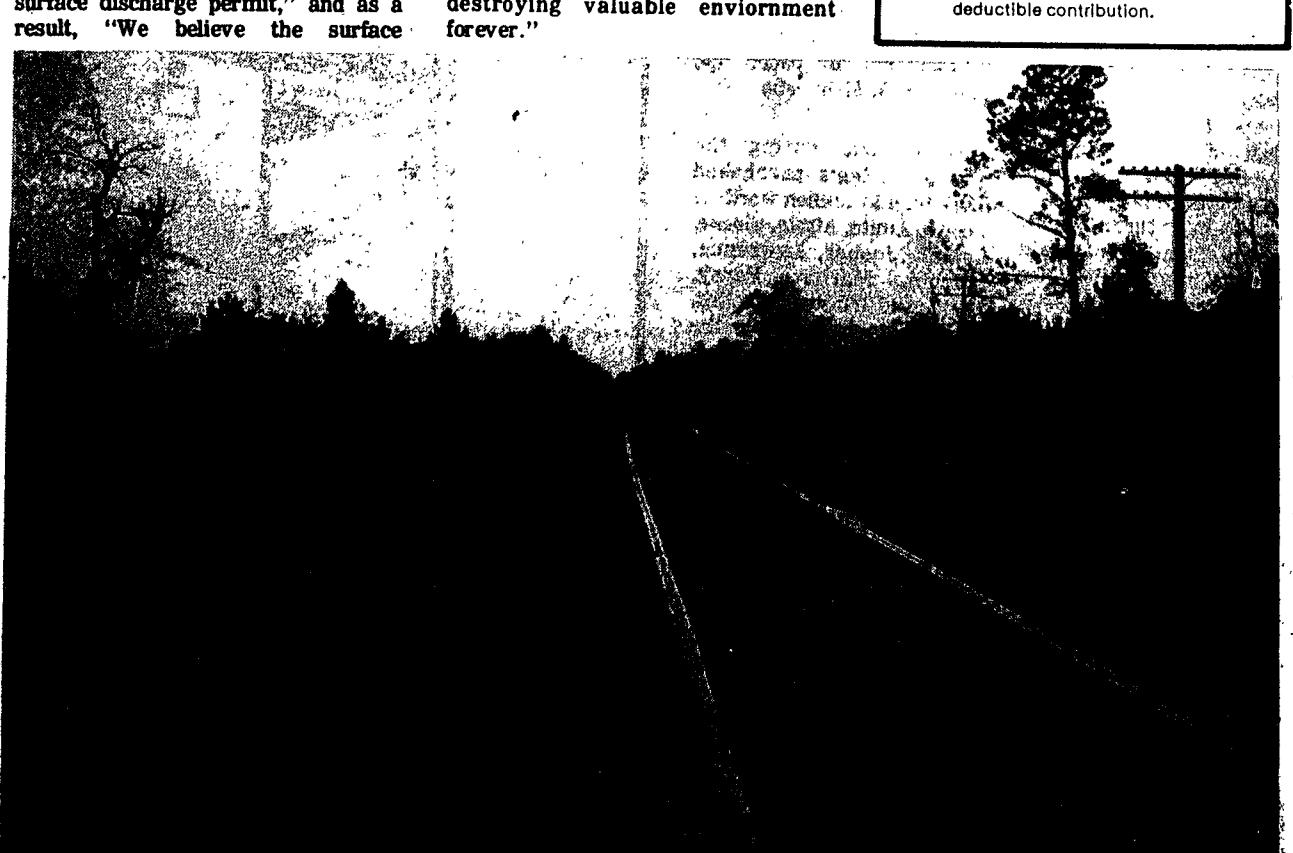

(Cont. from Page 1)

wish you and the board of directors every success in the coming year and the years ahead."

Thomas said the duties of the new executive secretary, apart from performing the directives of the board, will include promoting the chamber to both the members and the public.

"The chamber has gained the respect of a lot of people," Thomas said, adding that he and the directors are each determined to shoulder a piece of the management workload to assure continued growth in 1978.

Thomas said both he and the board were in agreement that the coming year offered the greatest challenge for Hancock County as, with the arrival of the incinerator plant, DuPont, Alcan, and other industry to Port Bienville and Ste. Genevieve industrial areas, the area faces almost unprecedented economic growth.

THE FINAL SUNSET OF 1977 briefly glitters on the Louisville and Nashville Railroad tracks west of Lakeshore yesterday evening before dipping below the horizon setting the stage for

the year's departure and the welcoming, at midnight, of 1978. "Le roigt mort, vive le roi!" (staff photo - Randy Ponder)

ADVERTISED
ITEM POLICY

Each of these advertised
items is required to be
readily available for sale at
or below the advertised price in each A&P
Store, except as specifically noted in this ad.

PRICES IN THIS AD EFFECTIVE THROUGH SAT., JAN. 7, 1978.

The
Great
A&P
Giveaway.

REGISTER TODAY!

To register in the Great A&P Giveaway just fill
in an entry blank available at A&P or your
Chrysler dealer's. Then drop it in the entry box
provided at your A&P store.

Five cars will be given away every week for
twelve weeks beginning January 1, 1978 and ending
January 27, 1978. You must register each
week to be eligible for the weekly drawing.

Ten \$5.00 gift certificates will be given away
each week as second prize.

Enter as often as you like. But no more than
one winner per family is possible. No purchase
necessary.

Winners must be at least 18 years old. They
will be responsible for sales tax and title/trans-
fer fees and must furnish their social security
number.

Farmer strike will not solve long term problem, claim made

The current strike by farmers will not solve their long-term problems, according to a University of Mississippi economics professor.

Dr. Paul T. Oliver, associate professor of economics at Ole Miss, and a specialist in agriculture, said that many economists are in agreement that the "farm problem" is essentially one of too many farmers producing too much food and fiber for the market, thereby driving prices down and preventing each from receiving an adequate income.

"Sad to say, it appears the only long-term solution for farmers is for resources, including farm labor, to be withdrawn from agriculture, with smaller quantities being produced and hence a higher share being received by those who remain in the industry."

Farmers are "striking" — withholding products they now have in storage from the market and refusing to plant crops this spring — to pressure the government into giving them full parity, Dr. Oliver said.

This means they want the government to guarantee that they will receive a price for their products that will cover all costs of production, plus give them a "reasonable" profit, he said.

The pressure could work, he said, because if the withholding action is successful, a "chaotic situation" will emerge in milk, meat and natural fibers production.

"Ultimately, if existing storage supplies are exhausted, which could be in a year, the shortages could very well become acute, and those industries engaged in processing food and fiber would begin to shut down, with enormous loss of jobs: the butcher, the baker, the candlestick maker would be out of raw materials to work with," Dr. Oliver said.

The Ole Miss professor said the situation arose because of

Cattle brand

renewal due every 5 years

Dewey Ellis, brands recorder for the Livestock Theft Bureau of the Mississippi Highway Safety Patrol, says that persons who wish to renew their brands registered with his bureau, might not receive notice when it is time to do so. He said that the \$5 registration fee covers a period of five years, "during which time, some of the post offices in Mississippi have changed route numbers in several locations.

Ellis asks that those persons who have changed their addresses from when the original brands were registered, either from moving or from a change in the post office's routing system, please write him in care of the Livestock Theft Bureau, P. O. Box 958, Jackson, Mississippi 39205.

He said: "Cattlemen in Mississippi who have not registered their brands are in direct violation of the law, according to Section 39-294-05, Mississippi Code of 1972. Any person using a livestock brand must first register the brand with the Mississippi Livestock Theft Bureau."

"This applies," Ellis said, "whether the owner has branded one animal or several hundred. Cattlemen are not required to brand cattle in Mississippi, but it is to their benefit for them to do so. For example, branded cattle discourage theft, and if an animal that has been branded strays off from the herd, locating its owner is easy through the registered tag."

Ellis said that failure to register brands may result in being found guilty of a misdemeanor punishable by a fine of up to \$100 and imprisonment for up to three months.

He said that "failure to register brands may result in pressuring the government to being found guilty of a misdemeanor punishable by a fine of up to \$100 and imprisonment for up to three months." He said farmers operate under pure competition with

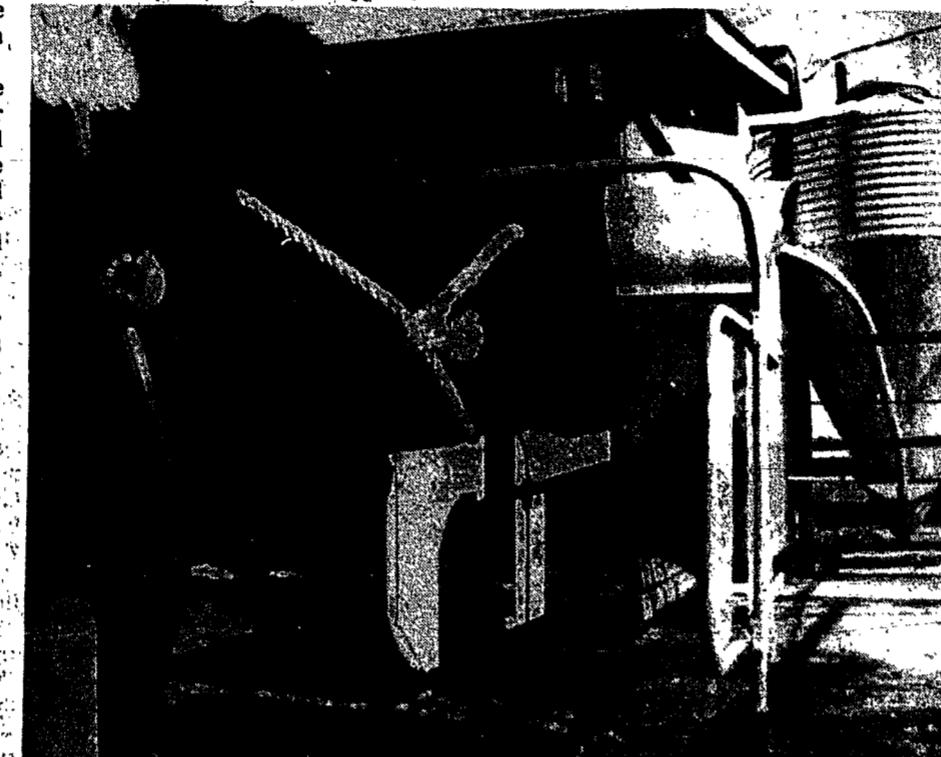

each other; their products are identical and seasonal, so individuals or groups can't normally control or influence prices and they don't have complete control over their output. In addition, they can't withhold their perishable products from the market for indefinite periods without loss.

The Ole Miss professor said that the success of the strike in bringing pressure on the government depends on getting most farmers to participate in it, and is not known how many support it. Dairymen and vegetable producers have indicated very

little support for the farm strike, he said.

"There are three fatal flaws to the strike," he said. "First, farmers are widely diversified and it's hard for them to agree on anything. Second, a withholding action will cause higher prices, but ultimately when farmers dump products, prices will fall. And the third and most fatal flaw is, if they refuse to plant next spring, farmers will have zero income."

Dr. Oliver, who was born in a ranch in Oklahoma, owns a 80-acre farm in Lafayette County.

MAFES RESEARCH COW, haltered to facilitate photography, is among the 12 equipped with a transponder to meter feed intake. Meter battery is charged as cow eats. Transponder controls time of food flow to prevent overeating.

Food intake vs. production is MAFES experiment aim

Electronically metering grain mix for individual dairy cows to increase milk production efficiency is showing promise in a Mississippi Agricultural and Forestry Experiment Station (MAFES) research project at Mississippi State University.

The project, financed by a De Laval Separator Grant, has equipped 12 cows with electronic transponders worn around their necks. The transponder activates the flow of pelleted feed, one pound per minute into a feeding trough. A timer on the transponder is set to limit the cow's 24-hour feed intake. The cow is allowed a designated number of minutes per day at the feeder; when this time is expired, the transponder no longer is able to activate the feed's glow into the trough.

The other 12-cow pens, one using magnets that activate feeders with no limit on feed intake and another with top feeding grain mix on corn silage, also are being used to compare efficiency of the three systems.

"Overfeeding and underfeeding have long been an expensive inefficiency in dairying," according to James E. Tomlinson, associate dairy nutritionist and director of the project. "The transponder approach enables us to come closer to the cow's actual needs without overfeeding. The high cost of feed makes some type of control almost a necessity in efficient dairy farm operations."

Beyond controlling the cow's feed intake, the meter on the transponder also records the minutes used. Each meter is read at 6 a.m. and 6 p.m. Settings are adjusted once a month. An E-cell battery, which powers the transponder, is re-charged as the cow eats; when the battery is fully charged, the feeder stops. "A cow cannot eat

more than half of its 24-hour allotment at any one time," Tomlinson explained.

Milk production for each cow in the three research pens is recorded daily.

"The project is just getting underway," the dairy researcher noted "and it will continue from four to six months. We hope to learn much about the exact amount of feed cows need for maximum milk production and to control costs by feeding only the amount required to meet the individual cow's need."

The new director joined MSU in 1969 as Forestry Department head. Under his leadership, the department's teaching and research program became one of the nation's best. Foil previously served in teaching, research

and extension roles at Louisiana State University.

A native of Bogalusa, Louisiana, he received his bachelor's and master's degrees from LSU and his doctorate from Duke University.

Foil is author or co-author of more than 50 publications. He has served as Mississippi Chapter chairman, ethics committee chairman and House of Section Delegates chairman, Society of American Foresters. Foil also has served as chairman, Council of Forestry School Executives, as a member of the Dean's Committee, American Forest Institute Executives, a member of the Editorial Advisory Committee, Forest and People Magazine, and a Hardwood Committee member, Louisiana Forestry Association. He currently is a member of the Secretary of Agriculture's Committee of Scientists and National Cooperative Forestry Research Advisory Board, chairman, Southern Pine Beetle Action Council, and a director, Mississippi Forestry Association. Foil also is a member of the National Wildlife Federation and Forest Farmers Association.

The new MAFES director is married to the former Patti Sue Thomas of New Orleans, and they have two children, Jerry, 18, and Allison, 16.

Personal Evaluation: Everyone is different. We like different things and have different abilities and personalities. One thing is common to all people, however. We like to decide what we want to do daily, monthly, or for a lifetime.

Young people almost demand that they be allowed to make up their own minds. Parents and leaders must recognize this and help youth make wise decisions for themselves rather than making decisions for them.

In 4-H we encourage youth to make up their minds and carry out chosen projects.

Set Goals: High aspirations must be developed. People who learn to set goals always feel a sense of accomplishment and increased personal confidence.

How many, what level, how much, and by when do you expect to complete goals are good questions to ask when setting goals.

4-H'ers are encouraged to set goals. They may wish to meet friends, take trips, win scholarships, or develop the champion calf. These goals make work and efforts meaningful.

MAKE PLANS: It is useless to evaluate and set goals without developing plans to help meet your goals.

A house built without a blueprint or a long trip without a map are good examples of goals without plans.

Good plans include who, what, when and where.

4-H'ers are encouraged to make plans for successful projects and thereby develop an appreciation for sound planning.

Work: Nothing really happens until people go to work. Work expresses your plans, goals, and the wisdom of your evaluation.

4-H'ers learn that work brings a person to life, sets him in motion and brings that good feeling of getting a job done.

Learn-by-doing is a proven method of personal development. Could we say that learning to evaluate, set goals, make plans, and work is the right way to do things and thereby the best way to learn?

White Cypress by Yvonne Ladner

255-1403

Tammy Buchanann, 12 year old daughter of Mr. and Mrs. J. C. Ladner, was honored with a surprise birthday party Tuesday, Dec. 20, at the Liana skating rink. She was joined by a crowd of friends.

Linda Ladner, daughter of Mr. and Mrs. Burns Ladner, is home on leave for a visit with her parents over the holidays. Linda will be on leave until Jan. 2.

We would like to extend our sympathy to the family of Chandler Ladner of Necaise Crossing.

The Crane Creek Church Youth Choir had a Christmas party on Wednesday night. They sang Christmas carols and exchanged gifts.

Happy Birthday wishes are extended to Jamie Necaise and to all others who are celebrating this week or next.

Another visitor for the holidays is Darren Swiley. Darren will be visiting with relatives for about two weeks. Darren is now making her home in Oklahoma.

With everyone being so busy over the holidays there isn't very much news to report so have a happy and prosperous New Year.

"THE VOICE OF THE SOUTHWEST MISSISSIPPI GULF COAST"

Bay St. Louis Waveland Diamondhead Pass Christian Long Beach

Firewood offers income source to land owners, if care shown

Hancock farmers selling firewood maybe cutting the wrong wood patch, according to the Southern Forest Institute (SFI).

Dr. Oliver, who was born in a ranch in Oklahoma, owns a 80-acre farm in Lafayette County.

of the better trees left standing.

Smith went on, "Many landowners inherited woodlots, which are often made up of inferior trees. Practicing sound forest management previously may have been economically impossible. Now, they have a market for the inferior trees, and should consider using that opportunity as a step towards improving their land."

SFI

says

about 2-million private, non-industrial landowners in the 13 Southern states own 74 percent of the commercial forest land. Poorly planned cutting practices could have detrimental effects on that forest base which is needed for the nation's wood and paper products in the future.

Removing the poorest trees provides more room and sunlight for improved growth

"If the South is to produce 55 percent of the nation's wood supply by the year 2020 as is projected, private landowners need to begin understanding and practicing forestry," said Smith. "Past experience shows most landowners know about cotton, corn and soybeans, but little about growing trees as a repeated crop."

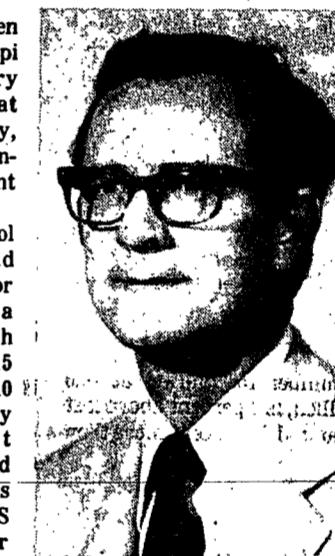

Smith concluded, "The best advice I can give a landowner is to seek advice from professional foresters before cutting for any market, and especially the firewood market with its enticement of quick profits."

Smith pointed to foresters from industry and government, as well as from the ranks of consulting foresters as sources of information.

PLANNING FOR '78

With the new year approaching, now is a good time to start looking at where we are personally and where we want to go. How will we use our family, school, church, 4-H and other activities to help us achieve our goals? Consider these:

R. Rodney Foil has been named director, Mississippi Agricultural and Forestry Experiment Station, at Mississippi State University, effective Jan. 1, it was announced by MSU President James D. McComas.

Foil, dean of MSU's School of Forest Resources and MAFES associate director since 1974, is responsible for a comprehensive research program conducted by 15 campus departments and 10 branch stations strategically located throughout Mississippi. Fundamental and applied research programs conducted by MAFES scientists address major problems and opportunities across a wide spectrum of disciplines and areas of interest.

The new director joined MSU in 1969 as Forestry Department head. Under his leadership, the department's teaching and research program became one of the nation's best. Foil previously served in teaching, research

and extension roles at Louisiana State University.

A native of Bogalusa, Louisiana, he received his bachelor's and master's degrees from LSU and his doctorate from Duke University.

Foil is author or co-author of more than 50 publications. He has served as Mississippi Chapter chairman, ethics committee chairman and House of Section Delegates chairman, Society of American Foresters. Foil also has served as chairman, Council of Forestry School Executives, as a member of the Dean's Committee, American Forest Institute Executives, a member of the Editorial Advisory Committee, Forest and People Magazine, and a Hardwood Committee member, Louisiana Forestry Association. He currently is a member of the Secretary of Agriculture's Committee of Scientists and National Cooperative Forestry Research Advisory Board, chairman, Southern Pine Beetle Action Council, and a director, Mississippi Forestry Association. Foil also is a member of the National Wildlife Federation and Forest Farmers Association.

The new MAFES director is married to the former Patti Sue Thomas of New Orleans, and they have two children, Jerry, 18, and Allison, 16.

Personal Evaluation: Everyone is different. We like different things and have different abilities and personalities. One thing is common to all people, however. We like to decide what we want to do daily, monthly, or for a lifetime.

Young people almost demand that they be allowed to make up their own minds. Parents and leaders must recognize this and help youth make wise decisions for themselves rather than making decisions for them.

In 4-H we encourage youth to make up their minds and carry out chosen projects.

Set Goals: High aspirations must be developed. People who learn to set goals always feel a sense of accomplishment and increased personal confidence.

How many, what level, how much, and by when do you expect to complete goals are good questions to ask when setting goals.

4-H'ers are encouraged to set goals. They may wish to meet friends, take trips, win scholarships, or develop the champion calf. These goals make work and efforts meaningful.

MAKE PLANS: It is useless to evaluate and set goals without developing plans to help meet your goals.

A house built without a blueprint or a long trip without a map are good examples of goals without plans.

Good plans include who, what, when and where.

4-H'ers are encouraged to make plans for successful projects and thereby develop an appreciation for sound planning.

Work: Nothing really happens until people go to work. Work expresses your plans, goals, and the wisdom of your evaluation.

4-H'ers learn that work brings a person to life, sets him in motion and brings that good feeling of getting a job done.

Learn-by-doing is a proven method of personal development. Could we say that learning to evaluate, set goals, make plans, and work is the right way to do things and thereby the best way to learn?

by 'Gwenney'

Hi, everyone. This being the first day of 1978, I'd like to wish all of you a very happy New Year.

We spoke with Willie Nacaise one of our senior citizens the other day. LeRoy Hoda, Airs Hoda, Rodney Ladner were just a few of the hunters in their party. The only ones he was sure got a buck were Rodney and LeRoy. We also received word that Danny Ladner bagged an eleven pointer.

The Ladner brothers were out hunting too, but it was for a little smaller game. Kermit and Kaire were hunting for quail. Looks like they didn't do too bad considering they shot their limit of seven each.

Father Austin said he and his helpers were pleased with the turn out to the midnight Masses. We'll have the story next week on our New Year's Dance.

Some of South Central Employees were working out in the hills this week. We stopped a few long enough to ask them if they had made any New Year's resolutions. We

got the following responses. M.W. Stafford, Carriere, said he would like to extend his coon nights from three to five.

J.B. Hillman from Long Beach said he would like to work less and hunt more deer.

J.H. Bourne from Waveland said he is going to ride his motorcycle more.

Ira Strickland from Picayune said he hadn't thought of one.

We also stopped Jim Roberson, district supervisor, Barq's Root Beer. Jim told us he had quit smoking cigarettes and had taken a pipe.

Mr. and Mrs. Vester Ladner had guests from New Orleans this week, James and Mary Walter and their daughter.

There are too many outstanding players on North Central's Hawks to pick one. So we'll just congratulate the whole team on last Friday's game against Boonville. Coach Ladner sure has a team of which he can be proud.

See you at church,
gwenney

HOGS & PIGS

**Mississippi
Crop & Livestock
Reporting Service**

DECEMBER 23, 1977

HOG AND PIG**INVENTORY ABOVE****1 YEAR EARLIER**

Mississippi's inventory of hogs and pigs is estimated at 420,000 head on Dec. 1, 1977, according to the Mississippi Crop and Livestock Reporting Service. This is four percent above a year earlier, 40 percent more than Dec. 1, 1975 and the largest Dec. 1 inventory since 1973.

Number kept for breeding hogs, at 8.8 million, is up 9 percent from a year ago and 16 percent above two years ago.

Number for market at 48.8 million, is 4 percent above last year and 17 percent more than December 1, 1975.

1977 Pig Crop: Mississippi's pig crop for \$977 totaled 581,000 head, up 16 percent from a year earlier and 25 percent above the 1975 pig crop.

December 1976 - May 1977 pig crop, estimated at 280,000 head, is up 12 percent from a year earlier and six percent more than two years ago. The December - May sows farrowed at 43,000 was 23 percent more than a year ago and 27 percent above the June - November 1975 crop.

June - November 1977 pig crop, estimated at 301,000 head, is 19 percent more than a year ago and 17 percent above the June - November 1975 crop.

The 6.3 million sows that were farrowed during June - November 1977 was 8 percent more than a year earlier. The average litter size during this period was 7.19 compared with 7.22 a year earlier.

Farrowing Intentions: U.S. Hog Producers intend to farrow 6.6 million sows during the December 1977 - May 1978 period, an increase of 5 percent from the same period a year earlier and 29 percent above two years ago.

These intentions are projected litter size indicate a pig crop of 48.0 million, 12 percent above a year earlier and 14 percent more than December 1975 - May 1976.

Farrowing Intentions: U.S. Hog Producers intend to farrow 45,000 sows during the December 1977 - May 1978 period, an increase of 1 percent from the same period a year earlier and 7 percent above a year earlier.

These intentions are projected litter size indicate a pig crop of 48.0 million, 12 percent above a year earlier and 14 percent more than December 1975 - May 1976.

Farrowing Intentions: U.S. Hog Producers intend to farrow 45,000 sows during the December 1977 - May 1978 period, an increase of 1 percent from the same period a year earlier and 7 percent above a year earlier.

These intentions are projected litter size indicate a pig crop of 48.0 million, 12 percent above a year earlier and 14 percent more than December 1975 - May 1976.

Farrowing Intentions: U.S. Hog Producers intend to farrow 45,000 sows during the December 1977 - May 1978 period, an increase of 1 percent from the same period a year earlier and 7 percent above a year earlier.

These intentions are projected litter size indicate a pig crop of 48.0 million, 12 percent above a year earlier and 14 percent more than December 1975 - May 1976.

Farrowing Intentions: U.S. Hog Producers intend to farrow 45,000 sows during the December 1977 - May 1978 period, an increase of 1 percent from the same period a year earlier and 7 percent above a year earlier.

These intentions are projected litter size indicate a pig crop of 48.0 million, 12 percent above a year earlier and 14 percent more than December 1975 - May 1976.

Farrowing Intentions: U.S. Hog Producers intend to farrow 45,000 sows during the December 1977 - May 1978 period, an increase of 1 percent from the same period a year earlier and 7 percent above a year earlier.

These intentions are projected litter size indicate a pig crop of 48.0 million, 12 percent above a year earlier and 14 percent more than December 1975 - May 1976.

Farrowing Intentions: U.S. Hog Producers intend to farrow 45,000 sows during the December 1977 - May 1978 period, an increase of 1 percent from the same period a year earlier and 7 percent above a year earlier.

These intentions are projected litter size indicate a pig crop of 48.0 million, 12 percent above a year earlier and 14 percent more than December 1975 - May 1976.

Farrowing Intentions: U.S. Hog Producers intend to farrow 45,000 sows during the December 1977 - May 1978 period, an increase of 1 percent from the same period a year earlier and 7 percent above a year earlier.

These intentions are projected litter size indicate a pig crop of 48.0 million, 12 percent above a year earlier and 14 percent more than December 1975 - May 1976.

Farrowing Intentions: U.S. Hog Producers intend to farrow 45,000 sows during the December 1977 - May 1978 period, an increase of 1 percent from the same period a year earlier and 7 percent above a year earlier.

These intentions are projected litter size indicate a pig crop of 48.0 million, 12 percent above a year earlier and 14 percent more than December 1975 - May 1976.

Legal Notices

IN THE UNITED STATES DISTRICT COURT FOR THE SOUTHERN DIVISION OF THE SOUTHERN DISTRICT OF MISSISSIPPI AT BILOXI

IN THE MATTER OF THE ADJUSTMENT OF DEBTS OF THE CITY OF BAY ST. LOUIS, MISSISSIPPI, UNDER CHAPTER IX, NO. 77-4032 (B)

NOTICE TO CREDITORS OF THE CITY OF BAY ST. LOUIS, HANCOCK COUNTY, MISSISSIPPI

You are hereby notified that:

The City of Bay St. Louis, Hancock County, Mississippi, (Petitioner) has filed a petition on the 30th day of August, 1977, seeking relief under Chapter IX of the Bankruptcy Act. The sole and only creditor of the Petitioner whose claim is disputed is Jimmy Ray Warner, II, in the principal amount of Three Hundred Seventy-five Thousand and no-100 Dollars (\$375,000) accruing to him as a result of a judgment rendered in his behalf in the United States District Court, Southern District, Southern Division of Mississippi, in Civil Action No. S7-232(N) on the dockets of said court.

Petitioner has sought relief under Chapter IX of the Bankruptcy Act, because it had reasonable grounds to believe that Jimmy Ray Warner, II might attempt to obtain payment of his claim against Petitioner in preference to its other creditors. If the plan for adjustment of the debt of Jimmy Ray Warner, II, as finally approved by the court, affects the rights of creditors of petitioner, other than Jimmy Ray Warner, II, said creditors will be notified.

ORDERED, 33 days of December, 1977.

Project Do makes 2nd Christmas in county

Eight local teenagers, all
members of the action group
Project Do, turned Tuesday,
Dec. 27, into Christmas Day
for 15 Vietnamese children
now living in Biloxi.

Hosts for the occasion were:
Karen Dieck, Diane Lacoste,
Susan Ward, Melissa Kersanac,
Krissy Koch, Nancy

Toomey, Stacie Comeaux,
Dorothy DesAngles.

Most of the day was spent
playing with the gifts received
by the hosts for their
Christmas two days before,
and practicing outdoor skills
such as tumbling, horseback
riding, motorcycling, and the
like.

EVEL KNIEVEL motor bike stunts were handled by Dennis Lacoste of Project Do this week, as he entertained his Vietnamese pillion rider, Tuu.

FAMILY PETS accompanied Vietnamese guests. Thank and Nog, center l-r, during tour of Koch garden being given by Krissy; left, and Laurie.

CHICKENS, owned by family of Nancy Toomey, are introduced to Vietnamese guest, Hoa, during latter's trip to Bay St. Louis this week. Hoa, thoughtful of occasion, had foresight to bring handful of corn.

PROJECT DO'S SOCCER PLAYERS, Susan Ward, left, and brother, Joe, holding ball, introduced their Vietnamese friend Phong to best method of putting best foot forward on Tuesday.

HOME, HOME ON THE RANGE was indication given by three
riders Tuesday during Project Do's Christmas Day. Dec. 27,
observances for fifteen Vietnamese children from Biloxi.
From back to front, riders are: Dorothy DesAngles, Huong,
and Tuu.

FOURSOME pauses in a round of hectic action, Tuesday,
during Project Do's special Christmas for Vietnamese
children. In group are: rear, l-r, Karen Dieck and Susan
Belgrave, front, l-r, Lien and Nghi.

PROJECT DO'S SOCCER PLAYERS, Susan Ward, left, and
brother, Joe, holding ball, introduced their Vietnamese friend
Phong to best method of putting best foot forward on Tuesday.

TREE CLIMBING was order of day, Tuesday, during trip to
Bay St. Louis of Vietnamese children to spend Christmas
Day, Dec. 27, with their friends in Project Do. Leading the
way in "follow the leader" was Stacie Comeaux.

Couples vying in Long Beach

Fund-raising activities are
underway in Long Beach by
the two teams competing for
the royalty titles of the Long
Beach Carnival Association.
Winners will reign as King
Scott XVIII and Queen Rosalia
at the association's 38th an-
nual carnival ball Jan. 28 and
parade Jan. 29.

Theme for the 1978 carnival
will be "I Love Music."

When a ground squirrel goes
into hibernation its body
temperature drops from 97
degrees to only 39 degrees,
according to National Wildlife
magazine.

Ball and parade captain will

Hawks edged by two

The Hancock North Central Hawks dropped a 75-73 contest with Thrasher Thursday night at Normand Junior College.

Thrasher scoring led by Bryan Barron's 20 points, Dickie Goddard's 16, and Mike Hastings and Alex Hood with 17 apiece, hit an unheard of 72 percent from the floor.

Dean Shaw scored 24 points for the Hawks with Alan DeLoach adding 21, and Barry Arcement 16. Mark Ladner had seven rebounds and DeLoach six. DeLoach had six assists and Arcement five.

The Hawks had defeated Thrasher, 60-49, in Harrison Central's gym last Thursday night.

Athletic director reports

Golden Eagles flew high in '77

Requested to reflect on the 1977 sports year at the University of Southern Mississippi, Athletic Director Robert H. Dale responded that he felt "it was a period of continued progress in our overall athletic program."

"Certainly the head coaches and members of their respective staffs are to be commended, as are the other members of our athletic family," Dale stated. "We added some new personnel, notably in the area of women's athletics, and we feel fortunate to have acquired such capable people as we did."

In chronological order the athletic director commented the following coaches:

Basketball coach M. K. Turk and his staff for an excellent showing in the 1977 portion of the '76-77 season, Turk's first as boss of the Golden Eagles cagers;

Departed women's basketball coach Bob McBee for his dedicated work in that area as well as in other areas (including baseball) the previous year;

Basketball coach Pete Taylor (who is also the assistant athletic director) for a successful campaign;

Tennis coach Dr. Larry Harrington (who is also the head trainer in all varsity sports) for his 16th consecutive winning season;

Women's tennis coach Kathy Morris, a graduate student who filled in admirably as an interim coach;

Golf coach James R. Carpenter for another successful year and the smooth operation of the State Junior Tournament;

Football coach Bobby Collins and his staff upon the completion of a break-even season in the University's first-ever 12-game season and for three wins over Southeastern Conference opponents for the first time; and a successful start in their student-athlete recruiting campaign;

Coach Turk and his staff again upon a good start in the 1977-78 season; and

New women's basketball and tennis coach Kay James, for a 5-2 start in her first campaign and a third place

Nurses improve communication skills, methods

Two Hancock County nurses, Lucille Dahn of Waveland and Sister Marie Christine Lomax of Kiln, participated in the workshop led by William David Cushe, vice-president and director of Organization Development Consultants, Inc., of Richmond, Va., recently at a University of Mississippi Medical Center workshop in Jackson.

The workshop was designed to help professional nurses in administrative positions develop more effective communication skills and techniques for communicating with patients and their families. The workshop was sponsored by the National Council of Hospital and Medical Center Division of Continuing Education.

commenting about the game, coach Roland Ladner said, "We kept them on the foul line too much, particularly early in the game, over anxious rebound fouls. Other than that we played a good game."

The Hawks outscored Thrasher in the first and fourth stanzas but not by enough margin to overcome Thrasher's scoring the second and third quarters. With only two minutes left, the Hawks were down seven points and were able to pull within two points as the buzzer sounded.

The Hawks were scheduled to play Bonville on Friday night, in their last encounter
